

AUGUST 2010 NEWSLETTER

President's Message

A very hot month of July is behind us. The current Corps of Engineers lake profile for Alum shows 80+ degree water all the way down the water column to just above the thermocline. The fish are pinned in a very narrow refuge zone and the risks of excessive stress and delayed mortality are much higher than we have seen in the last few years. It will take an exceptionally cool August to change that much, and like many of you, I am really looking forward to a fall cool down.

Our July Nite Bite Outing was cancelled. At our meeting next week, we will take a vote to reschedule the event to Friday September 24th or cancel it for this year. For consideration, the possible reschedule date is two weeks before our fall shoot-out. It is also one day after the full moon with sunset at 7:26 PM and moonrise at 7:40 PM.

Our Youth Event this past month was a huge success. We had about 80 kids assisted by over 20 of our club members, and it was a great night at the Park of Roses. The catfish we purchased this year did their job, and most if not all of the kids had some good fishing action. It was neat to see many of the same kids from previous years. I had a little guy who I worked with last year run and find me to show me the fish he'd caught this year, because he was so proud he'd done it on his own. I hope everyone else had a similar rewarding experience. We owe a bunch of thank yous on this one. We received monetary assistance from an ODNR Step Outside Grant, a local company called Integrated Leadership Systems (ILS), and Elmer who donated lures to a raffle specifically to raise money for the event. Elmer also deserves thanks for setting up the fish and tackle for the kids. Thanks to the Parks and Recreation Staff and their Hooked on Fishing, Not on Drugs (HOFNOD) program. Thank you to all who helped cook, rig, bait, unhook and untangle that night. Our club is very strong and it showed in the way this event moved forward. We did not have full external financial support for the event this year, but we have a strong enough treasury in place to make sure it still happened. As they left, we received many sincere thank you's from the parents of these exciting kids.

Our August meeting is right around the corner and we will be back at PJ's in Sunbury. Tuesday August 10th at 7 PM. Our speaker this month will be Mike Mordas of Muskie Train and he will be doing a presentation on Trolling Crankbaits for Muskies. Knowing Mike, I expect this to be a very informative and energetic presentation. The weather did not really cooperate with our two summer meetings at the lake. Get the word out and let's have a great turnout for this first meeting back at PJ's in a few months. Our meetings are open to the public and will conclude with a great lure raffle. I hope to see everyone there!

Online Fish Entry Instructions

Steps to enter fish online:

Go to www.muskiesinc.org

Click on the Members Only tab

Log in using your 5-digit Muskies Inc. membership number

If you are logging in for the first time, follow the instructions on the MI website to establish a log in and password

Once logged in, click the link to online fish submission

Fill in the online version of the release form with all necessary information. Remember that we only report fish to MI that are 30 inches or more

Once you have all the necessary information entered, click submit fish. Once you submit, it will give you a 6-digit lunge log ID number. Once you get this number, you have entered your fish successfully.

If you are entering more than one fish, your information will still be in the form. Simply over-type that information with the information for your next fish and click submit again. That will give you another ID number.

Be very careful not to submit a fish twice.

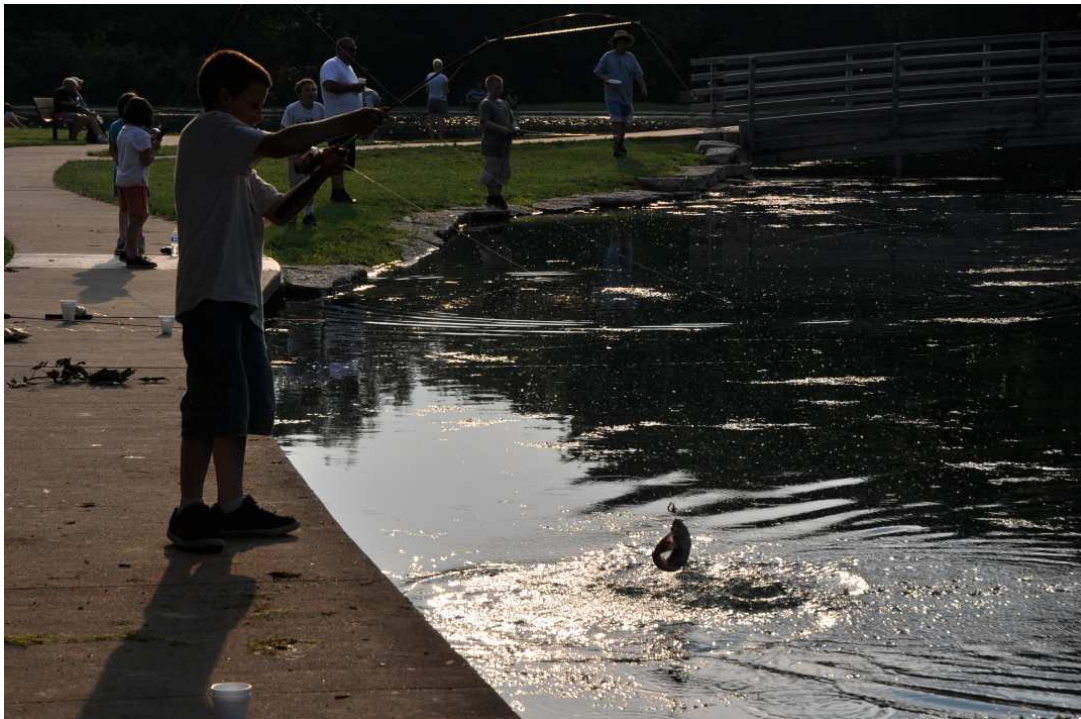

Muskie Angler Log

The Muskie Angler Log was developed in partnership with the Ohio Muskie Anglers as a resource for Ohio Muskie anglers and to support muskie management efforts in Ohio by providing valuable muskie catch data to the Ohio Division of Wildlife

Photos of the Month

Some good action photos from the youth event– not exactly 50” but just as fun !
